

THE SEREBRIAKOFF ADVANCED (CULTURE FAIR) TEST

This test is recommended for those who do very well on the other tests. By itself, it can be seen as a culture fair test. It tests your understanding of space relationships, pattern and design. It also tests your reasoning power and your ability to grasp underlying principles despite deliberate distraction. These arrays are bi-logical – like a crossword puzzle they make sense in two dimensions, down and across. Some are very difficult.

The Test was standardized against a Mensa sample. The level is quite high. It is not suitable for those below average. There is no time limit.

Instructions

Try to work out the plan, or scheme, or order behind the way the central tiles are placed so as to find out which of the surrounding scattered tiles fits reasonably and logically into the space in the array.

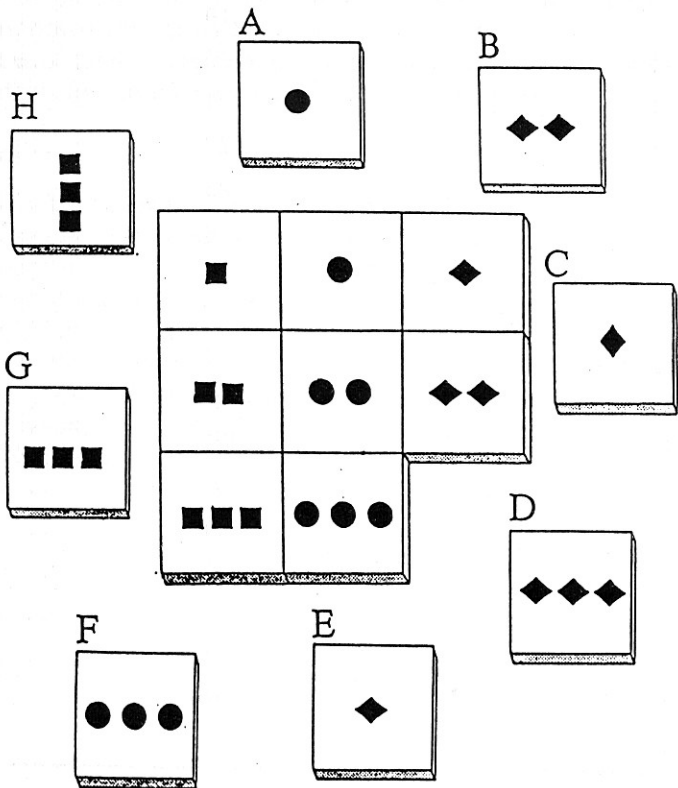

Go through the 36 tests. There are eight 'tiles' in the central 3×3 array which have an inner bi-logical order. But one tile is missing. You will find it among the other ones which are scattered around. Find the missing tile among the lettered ones and write the letter above the tile against the question number on the answer page. Turn the book sideways so that you can see four puzzles each time you turn a page.

The answer page

Write the letter by the missing tile after each question number.

<i>Question number</i>	<i>Answer letter</i>	<i>Question number</i>	<i>Answer letter</i>
1	19
2	20
3	21
4	22
5	23
6	24
7	25
8	26
9	27
10	28
11	29
12	30
13	31
14	32
15	33
16	34
17	35
18	36
